

EIS) for Carlsbad Caverns National Park. This notice also announces a public meeting for the purpose of receiving public comments on the Draft GMP/EIS.

The purpose of the general management plan is to set forth the basic management philosophy and to provide the strategies for addressing issues and achieving management objectives over the next 10 to 15 years. This Draft GMP/EIS describes and evaluates three alternatives for the management of Carlsbad Caverns National Park.

Alternative 1

Alternative 1 describes the continuation of existing management direction at the park as described in current plans (the no-action alternative). The park would provide for visitor use and respond to resource management issues and concerns as funding allowed, but no major change in management direction would be initiated.

Alternative 2

Alternative 2 is the proposed action and National Park Service's preferred alternative. It would base resource management and visitor use decisions on expanded scientific research, inventory, and monitoring. Information would be gathered about how human activities and facilities are affecting park resources, especially cavern resources. A development concept plan would be undertaken once these studies had been completed to determine how to reduce or eliminate threats to subsurface resources, with measures possibly ranging from infrastructure improvements to the removal of certain facilities. Opportunities for visitors to enjoy and learn about significant park resources would be increased, special off-trail tours would be continued, the feasibility of opening Ogle Cave to tours would be studied, and additional surface trails would be provided. The visitor center would be remodeled to be more efficient, and a ranger residence would be provided near Slaughter Canyon.

Alternative 3

Alternative 3 proposes the removal of many surface functions and facilities above the cavern within five years to ensure the protection of subsurface resources. To replace these functions, a new visitor orientation/transit center and a park operations center would be developed at the base of the Guadalupe escarpment. Visitors would use a shuttle system for access to the existing visitor center, which would be modified to focus on interpretation and essential services. Visitor use of the cavern would

be monitored and restricted to minimize further damage to cavern resources, and no special off-trail tours would be provided.

The environmental impact analysis indicates that alternatives 2 and 3 would better protect the park's significant resources than would alternative 1. Some potential threats to subsurface resources would remain under alternative 2, pending the completion of studies. Alternative 2 would increase visitor opportunities and provide more in-depth interpretation, while alternative 3 would limit the range of opportunities but improve interpretation. Alternative 2 and 3 would both have beneficial long-term socioeconomic impacts. The risk of an accident that could close the cave to public entry, thus affecting the local tourism industry, would continue over the long term under alternative 1 and over the short term under alternative 2; this risk would be reduced within the foreseeable future under alternative 3.

DATES: Comments on the Draft GMP/EIS should be received no later than January 16, 1996. The date and time for the public meeting regarding the draft GMP/EIS can be obtained by contacting the park at (505) 785-2232, extension 321.

ADDRESSES: Comments on the Draft GMP/EIS should be submitted to: Planning Team Leader, Carlsbad Caverns General Management Plan, National Park Service/Denver Service Center, Post Office Box 25287, Denver, Colorado 80225-0287.

DEPARTMENT OF LABOR

Employment and Training Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Quarterly Determinations, Allowance Activities and Employability Services Under The Trade Act; and Training Waivers Issued and Revoked

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, reporting forms are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed reinstatement of the collection of the Quarterly Determinations, Allowance Activities and Employability Services Under The Trade Act, Form ETA 563; and Training Waivers Issued and Revoked, Form ETA 9027.

A copy of the proposed information collection request can be obtained by
